

Property Services for Churches

Studio B Architects provides a range of services to churches in which they are skilled and experienced

Strategic Vision Assistance

- Questionnaire and analysis to determine your specific ministry direction or calling.
- Property and mission analysis.
- Property planning and assistance with briefing for projects
- [Mission and development integrated masterplanning](#)
- [Feasibility studies](#) and [Strategic Planning applications](#)

Specialist design and coordination

- [Auditorium design](#)
- Welcome / hospitality design
- Design of spaces to encourage interpersonal relationships
- Sustainable design

Heritage Architecture Services

- [Adaptation to meet new needs including flexible uses](#)
- Restoration and repair
- Appropriate extensions and new work in heritage contexts
- Heritage permit applications

Normal Architects Services

A full architect's service from briefing and concept through to completion of construction and occupation including:

- 3D imagery and visualisation
- Town planning applications
- Building Permit applications
- Preparation of tender documentation
- Construction contract administration
- Certification of value for progress payments

This range of services stems from our core skill base and experience which covers issues such as:

- Research into successful mission-based buildings and property in the USA, UK and Australia.
- Working with developers to achieve best value
- Working on many significant heritage buildings in the UK and Australia over many years
- Successfully achieving planning permits, often in heritage sensitive locations
- Understanding the needs of the contemporary church and accommodating new ways of being church

These services can be provided in stages or as a complete service. Please contact Fred Batterton at 03 9486 4425
