

CHURCH COMPLEX CONCEPT TO COMPLETION Rowville Baptist

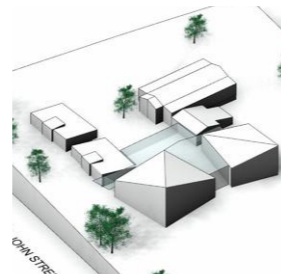

The existing church community had outgrown its current worship space and the second (Chinese) congregation need to meet at the same time as the English-speaking congregation. This proposal resolves the situation and that enables the current auditorium to be used as a youth space.

Description of complex:

- 2 new auditoria:: 350 seat and 190 seats
- Creates sheltered internal courtyard by its location
- Common community Foyer and function space with kitchen
- Connects to existing church offices and children/youth centre
- Enables access from existing car parking on both sides of the new building.

Design features include:

- Provides visible connection to the street
- Indicates activity within
- Creates new sheltered courtyard as a significant activity space
